The Committee Points Need of Protecting Defense Funds From Shipbuilders—Congress Divorces Tax-the-Rich Bill From Nuisance Tax.

By EDWARD W. PICKARD

Senator Nye of North Dakota and his committee on munitions do not have a very high opinion of shipbuilders and they feel that strong legislation is needed to keep them from continuing "public defense needs with their private pocket books." Therefore the committee, in a preliminary report, asks that lives be enacted to these things:

1. Prevent "collateral" bidding for navy construction.
2. Prevent American patents from falling into the hands of foreign power.
3. Limit profits to 8 per cent of the cost to the government, in cases where the government assumes the risk of the enterprise, or to 10 per cent where the government does not.
4. Require that shipbuilders "register" with the government and disclose their income and expenditures.

Strong Favorite of Quilt Makers

By GRANDMOTHER CLARK

The "Irish Chain" quilt can be found in almost every collection, and it is one of the most popular of all. It is made of squares of material, each square being a different color. The squares are arranged in a chain, and the chain is made of squares of material, each square being a different color. The squares are arranged in a chain, and the chain is made of squares of material, each square being a different color. The squares are arranged in a chain, and the chain is made of squares of material, each square being a different color.

HOW TO ASSURE WEEDLESS LAWN AT LITTLE COST

Keeping your lawn beautiful and weed-free will not be so difficult a task if you give it a little attention right now. In those portions of the lawn where weeds are already established, it is desirable to dig them out carefully. After this is done a system of regular lawn care, including feeding, clipping and proper watering will help you keep weeds under control in your lawn. Here are four pointers which will help you have a better lawn this season:

1. Reseed bare spots promptly. If you have not already reseeded all bare and thin spots in your lawn, do so immediately. Loosen the soil on these spots with a rake and reseed with a good grade of grass seed. Be sure to keep these reseeded areas moist until the seed germinates.
2. Feed the lawn with a complete, balanced plant food. Apply four pounds of complete plant food per 100 square feet of lawn. Use one of these simple chain patterns. The single, double, or triple Irish Chain has one, two, or three blocks in the chain. The background is white and the squares are a solid blue, red, or other dark color. The squares in this quilt measure 1 1/2 inches without seam, and they are applied on two different nine-inch blocks; one all checked, the other with a square in each corner. These are assembled alternately to give above effect. Seven 9-inch blocks are used across top and nine blocks on side. With a 12-inch border quilt will measure 60 inches in length and 72 inches in width. This quilt is simple to make but cutting of squares and blocks must be accurate to produce good results.
3. This quilt is one of the 32 popular quilts shown in book No. 22, which will be mailed to you upon receipt of 15 cents. Cutting charts, instructions and valuable information for quilt makers will be found in this book.
4. Address—HOME CRAFT CO., DEPT. D, Nineteenth and St. Louis Ave., St. Louis, Mo. Enclose a stamped addressed envelope for reply when writing for any information.
